

Environmental Impact Policy

Statement of Policy

At Resolution Chambers we are committed to minimising the environmental impact of our practice.

We commit to:

- Creating a work space with a reduced environmental footprint by looking for opportunities to reduce energy consumption and waste in accordance with our pledge to <https://www.greenerarbitrations.com>
- Taking active measures to reduce our net emissions by 50% by 2030, and to achieve net zero emissions by 2050 in accordance with the objectives and commitments of <https://netzerolawyers.com/>
- Corresponding electronically, unless hard copy correspondence is expressly needed in the circumstances, while also being mindful that email has a carbon footprint;
- Using videoconferencing facilities as an alternative to travel (including for the purposes of conducting meetings within Hong Kong) where ever possible;
- Avoiding printing wherever possible.
- Requesting the use of electronic rather than hard copies of documents and promoting the use of electronic bundles at hearings where possible;
- Using, where possible, suppliers and service providers who are committed to reducing their environmental footprint;
- Considering and/or suggesting, where appropriate, that witnesses or experts give evidence through videoconferencing facilities, rather than attend arbitration hearings in person;
- Considering and questioning the need to fly at all times, and when flying, offsetting carbon emissions. Avoiding unnecessary travel.
